

FAMILY FUN CHALLENGE #3

INDOOR CAMPING TRIP

We may be stuck inside, but who says we can't bring the outdoors in!

1. Gather all the resources needed to make the perfect indoor tent (i.e. blankets, chairs and pillows).
2. Once all your resources are available, draw a blueprint or a plan to guide your tent construction.
3. After you have built your tent, it's time to decorate! Fill it with all the comfy necessities you will need to "survive the night."
4. Pick a menu! If it's possible, try and plan your night's meal around camping food. Hot dogs, burgers, popcorn, s'mores from the oven, or whatever your family traditionally eats on a camping trip.
5. End the night with some spooky stories, or watch your favorite film "under the stars." YouTube nature sounds to really enhance your camping experience.
