

FAMILY FUN CHALLENGE #5

HOME THEATER

Invite your family out for a night at the theater
only **YOU ARE THE STARS!** ★

1. **First decide on the topic of your production.** It can be song, a short skit, or a full length masterpiece. Whatever sparks joy, go with it! It could even be a play about your new family routine.
2. **Add some sparkle!!** While creating your outline or script be sure to add touches of drama or comedy to really entice the audience.
3. **CASTING!** Some believe casting can make or break a film. Be sure to incorporate your family's unique personalities, and cast each member in a role that really makes them shine!
4. **Finishing touches.** Now it's time to **pick your locations** (Living room, bedroom, or even the back yard for a more exotic look.) Also, don't forget costumes!
5. **LIGHTS! CAMERA! ACTION!** Perform your show and record it. When it's all finished, sit back and enjoy watching your creation together. You can hold on to this masterpiece forever, and if you are feeling brave share it with loved ones virtually to brighten their days!
